

JAMAL HASSAN YOUSEF ABUATTAYA

SOFTWARE DEVELOPER | APPLICATION SECURITY

jamalabuattaya@gmail.com | LinkedIn | Portfolio
GitHub | Israa University | UCAS

PROFESSIONAL SUMMARY

Mobile Computing B.Sc. candidate and Information Security diploma student with hands-on experience building Java/Android and Flutter applications, React front ends, and PHP/Laravel web solutions. Strong foundation in data structures, databases, software engineering, networks, operating systems, cloud computing, and information security, with a career focus on secure software development and application security.

EDUCATION

B.Sc. in Mobile Computing | 2023 - Present (Expected 2027)
Israa University - Faculty of Engineering and Information Technology | GPA: 86.53/100 | 106 credit hours passed
Diploma in Information Security | 2025 - Present
University College of Applied Sciences (UCAS) | 37 of 74 credit hours completed
Relevant coursework: Data Structures, Databases, Software Engineering, Mobile Application Development, Operating Systems, Computer Networks, Cloud Computing, Artificial Intelligence, Information Security, Threat and Risk Management.

TECHNICAL SKILLS

Programming: Java, Dart, PHP, JavaScript, TypeScript, SQL
Frameworks & Platforms: Android (Java), Flutter, React, Next.js, Laravel
Data & Engineering: MySQL, SQLite, REST APIs, Git/GitHub, UML, ERD, normalization, testing, technical documentation
Application Security: OWASP Top 10 and API Top 10 awareness, authentication and authorization, access-control analysis, HTTP/JSON traffic review, IDOR/BOLA, threat and risk assessment, secure coding, responsible disclosure
Systems & Networks: TCP/IP, subnetting, VLANs, DHCP, DNS, ACLs, operating systems, Windows Server, AD DS, cloud fundamentals

SELECTED PROJECTS & PRACTICAL WORK

Responsible Security Disclosure | *Application Security*
Analyzed a horizontal authorization weakness in a student-information API, organized HTTP/JSON evidence, and prepared a remediation-focused report aligned with OWASP API1:2023 and CWE-639.
Secure Portfolio Engineering | *Next.js / TypeScript*
Improved a personal portfolio with typed content, secure headers, validated contact handling, accessibility fixes, media optimization, metadata, and automated quality checks.
Mobile & Web Application Development | *Java / Flutter / React / Laravel*
Completed academic application-development work spanning Android with Java, cross-platform Flutter, React interfaces, PHP/Laravel web programming, SQL databases, and local mobile data storage.

ADDITIONAL TRAINING

Edraak, 2026: Cyber Security Attack Techniques; Protect Systems from Penetrations; Cyber Security Basics; Java Programming 1; Introduction to Artificial Intelligence and Generative AI.

LANGUAGES

Arabic (native) | English (academic and technical communication)
